

May 26, 2011

I am grateful to Toberman Neighborhood Center and Michelle Fallon for the opportunity to work with Toberman students every week in the after school program. Toberman provides an exceptionally clean, quiet and comfortable facility in good repair for students, staff and volunteers while Michelle maintains a structured after school environment conducive to effective mentoring of the students.

It is of course a great pleasure to meet with a number of the same students every week, to catch up on their respective activities, to learn more about their concerns, to exchange information about their interests and of course to assist in their homework assignments. Thanks to Toberman, Michelle and her assistant April, the students accepted into the program are pleasant and often absolutely delightful to work with.

Sincerely,
